I have the honor to submit the Annual Report of the Department of the State Auditor for the fiscal year, July 1, 1970 to June 30, 1971.

Section 12 of Chapter 11 of the General Laws defines the duties of the Department of the State Auditor.

"Section 12. The department of the state auditor shall annually make a careful audit of the accounts of all departments, offices, commissions, institutions and activities of the commonwealth, including those of districts and of authorities created by the general court, and including those of the income tax division of the department of corporations and taxation, and for said purpose the authorized officers and employees of said department of the state auditor shall have access to such accounts at reasonable times and said department may require the production of books, documents and vouchers, except tax returns, relating to any matter within the scope of such audit. The accounts of the last named department shall be subject at any time to such examination as the governor and council or the general court may order. Said department shall comply with any written regulations, consistent with law, relative to its duties made by the governor and council. This section shall not apply to the accounts of state officers which the director of accounts of the department of corporations and taxation is required by law to examine. The department of the state auditor shall keep no books or records except records of audits made by it, and its annual report shall relate only to such audits. The examination of the accounts of districts and authorities required by this section shall be made in addition to any audit required by the law creating such district or authority."

All requirements of the law relating to the duties and functions of the State Auditor have been carefully complied with for the fiscal year ending June 30, 1971.
